MEMORANDUM FOR: The Secretary of State  
The Secretary of Defense  
The Assistant to the President for National Security Affairs

SUBJECT: Intelligence Community Planning Through 1990 (U)

REFERENCE: Memorandum from the President to the DCI, NSC/ICS-400125,  
dated 6 May 1982 (S)

1. The referenced Presidential memorandum approved the 1985 Intelligence Capabilities Study, in which you participated last year, as the basis for Community long-range planning. I believe that we should now proceed to the next step in the Community's strategic planning process, a more in-depth look at selected factors both within and outside the Community that will impact on our ability to assure an uninterrupted flow of intelligence into the next decade. Attached is a copy of the approved terms of reference for this undertaking. (C)

2. I would appreciate it if you would designate a senior member of your staff to serve with John McMahon on the Executive Steering Group for the study. The Executive Director, Central Intelligence Agency, will serve as the CIA representative. I do not envision that this Group will meet often, but I do expect that it will provide the overall policy guidance for conducting the effort. Your continued participation and support is vital to the success of this Community undertaking. (U)

  
William J. Casey
